## How to update your TeamPick file

The following screenshots were prepared with the Microsoft Edge Web Browser and Windows 10 operating system. Windows 7 and 8 will look a little different but the steps are the same.

- Go to <a href="http://www.teampick.co.uk/downloads.html">http://www.teampick.co.uk/downloads.html</a>
- Scroll down until you see the latest Teampick version (1.0.24 at the time of writing)

- Click on the teampick\_10XX.zip link to download
- Chrome will warn you that the download is potentially dangerous

| Download | File Name        | Description  |  |  |   | Last<br>Updated | Size  |

| _ · · · · · ·    |                 |                            |                           |                 |          |

- Right-click Teampick.Exe and select copy
- On the left hand-side of the windows explorer window you should be able to see "Computer" or "This PC" (depends on Windows version)
- Double-click "Computer" / "This PC"
- Double-click "Local Disk (C:)"
- Double-click "Program Files (x86)"
- You should now see a list of folders TeamPick will be below the botton
- Double-click "Teampick" folder
- So your screen should now look something like this
